To Whom It May Concern:

We have reviewed a site plan for a new subdivision for a property on Mulberry St. At this time with the current proposal, we are in agreement with the current plans dated 2023-09-08. If at anytime the plans change or are updated, we request to review and take into consideration the new site plans. We also request that we are able to review the interior site plan once submitted, any comments submitted by any other agency or department will be reviewed.

Respectfully,

Chief Bryant Knapp
